SKILLS

- **Programming Languages:** Python, Java
- **Web Development:** HTML,QML,CSS, JavaScript, React, Angular, Node.js, Express
- **Database:** My SQL, Mongo DB
- AI&ML

INTERNSHIP EXPERIENCE

DRDO,Intern

Human Machine Interface Development

Developed HMI projects showcasing interactive UI skills:

- **Image Magnification & Range Selection Tool:**Built an interactive image viewer using Qt and QML with dynamic zoom and magnification,Features: Dynamic image clipping, interactive magnifier, and smooth UI transitions.
- **Data Logging & File Transfer App:**Designed a GUI-based tool for efficient file management and serial communication,
Features: COM port selection, bulk file transfer, real-time progress tracking, and modern UI.

MOTIONCUT,Intern

Web Development

Created web projects showcasing skills in front-end development and UI design:

- Designed a visually appealing e-commerce product page using HTML and CSS.
- Built a dynamic image slider with HTML, CSS, and JavaScript.

PERSONAL PROJECTS

Stock Maintenance System

- Developed a stock management web application using Python and Flask to track, add, update, and delete inventory items efficiently. Integrated user-friendly interfaces for real-time inventory monitoring and streamlined product management.
[GitHub Link](#)

Pay-Flow Payment Management App

- Designed and developed a responsive mobile-first web application to manage payments, customers, subscriptions, and transfers using HTML, CSS, and JavaScript. Implemented dynamic content loading, interactive dashboards, and navigation with mock financial data to simulate a real-time user experience.

HACKATHONS

Smart Vehicle Parking System — Smart India Hackathon (College Level)

- Developed an IoT-based smart parking system that utilized sensors to monitor real-time parking lot occupancy and transmitted the data to the cloud/local network for efficient parking management and space optimization.

CERTIFICATIONS

- Infosys Springboard:Angular WebDeveloper Certification
- Skillrack:Python 3.x-Programming course
- MathWorks:Object Oriented Programming
- Mathworks:Machine Learning Onramp
- ICT academy:Explore automation development with UiPath Studio

EDUCATION

Loyola ICAM College of Engineering and Technology

B. Tech in Information Technology (CGPA: 8.28)(till 5th sem)
